## NEW BOOKS

BASIC PRINCIPLES OF SPEECH by L. Sarett and W.T. Foster. New York, Houghton Mifflin Co., cl946. rev. ed. 604 p. 145.2 Sa7.

Everyone is convinced that it is important to know how to write, and to write well; yet most of us speak at least twenty times to every time we write. The most influential men and women in the world today are leaders who are able to speak in public to a good purpose. Effective leaders are also good speakers. A very good book on the basic principles of speech divided into two parts: part 1- delivery, and part 2- speech composition.

HOW TO EDIT AN EMPLOYEE PUBLICATION by G. Bentley. New York, Harper, cl944. 238 B44.

"There are many books on advertising, personnel work, newspaper reporting, but aside from an occasional article in the advertising journals there has been practically no source of information about the creation and editing of employee publications. The book covers the main considerations in launching a publication." Preface.

#### PHOTOCOPYING SERVICE

Suspension of the free photoprint and microfilm service was effective September  
1, 1950.

The Library will continue to provide copying service for material in its  
collection, but the cost will be paid by the agency requesting the service.

Bureaus may deposit lump sums to receive copying service as heretofore. Those  
making deposits to date are: Bureau of Plant Industry, Soils and Agricultural  
Engineering, and the Farm Credit Administration.

Requests for library material- requested in the usual way- will be filled by  
sending the original publication when available in place of the photostatic as  
before, except to those staff members of the Bureaus making lump sum deposits.  
If a photoprint is desired in preference to the original, order through your  
Bureau on Library Form -60 revised.
